

Progyny is setting the gold standard for women's and family health, helping Taft-Hartley labor groups attract and retain members while reducing healthcare costs

Unlike digital-focused solutions, we combine clinically integrated, concierge-level support with specialized provider networks to manage risk from day one.

- **Trying-to-Conceive, Fertility and Family Building:** Robust clinical preconception programming, fertility specialists (REIs), reproductive urologists (RUs) for male factor infertility, and surrogacy/adoption agency support.
- **Pregnancy and Postpartum:** Certified doulas, pelvic floor therapists, lactation consultants, and in-depth leave and benefits navigation
- **Parenting:** Parent-focused emotional support and child development education led by clinical social workers
- **Midlife and Menopause:** Access to a network of specialized menopause care providers.

Progyny's pre-tax benefit design and comprehensive outcomes reporting for 100% of our members can help labor organizations deliver transformative care while managing costs effectively.

We Understand Labor

Dedicated and experienced teams across sales, client success, implementation, and member services

100% Labor Retention Rate | ~30% savings driven by our superior clinical outcomes
