

## Identify & Get Ahead of Hidden CKD Risks

*Have a health plan member on dialysis?*

*Is chronic kidney disease (CKD) prevalent among health plan members?*

**Renalogic is a recommended service provider of the NLA and can help:**

- Identify members at risk for kidney disease.
- Prevent CKD from progressing with nurse-led care.
- Protect plan assets with our claims repricing solution.

### Our Results:

**230%**

Better at identifying undiagnosed CKD.

**30%**

reduction of emergent dialysis starts

**50-80%**

Average savings against contracted rates.

### How it works:

Execute confidentiality agreement

Establish data exchange

Analyze, review and discuss data analysis

Implement programs that assist in improved health of the member and fund
