

Achieve unmatched outcomes & industry-leading cost savings with Sword Health

The only MSK solution offering clinical-grade care with outcomes-based pricing.

We collaborate with top health plans and employers to deliver the most clinically effective digital MSK program. By delivering on our promise to improve member health and reducing costs, our clients are confidently expanding into risk-based lines of business. Sword leads the market in technology innovation, and is the first digital health solution to introduce outcomes-based pricing, reinforcing our commitment to exceptional value and results.
